On December 26, 2004, a massive earthquake struck off the coast of Indonesia, triggering a devastating tsunami that killed over 230,000 people in 14 countries. Among the victims were thousands of children.

Children of the Tsunami is a powerful and moving account of the tsunami as seen through the eyes of children. Donna Jo Napoli, a renowned children's author, traveled to Sri Lanka in the aftermath of the disaster to interview survivors and collect their stories.

The result is a deeply personal and heartbreaking account of loss, resilience, and hope. Napoli tells the stories of children who lost their parents, siblings, and friends in the tsunami. She also tells the stories of children who survived, despite losing everything they had. These are children who have shown incredible strength and courage in the face of unimaginable adversity.

Children of the Tsunami is a must-read for anyone who wants to understand the impact of the tsunami on children. It is a story of loss and grief, but it is also a story of hope and survival. These children have shown us that even in the darkest of times, there is always hope.
