From Frozen Lakes to the Ice Rink

The history of skating dates back to the Stone Age, when humans first strapped animal bones to their feet to glide across frozen lakes and rivers. Over the centuries, skating evolved from a practical mode of transportation to a recreational activity enjoyed by people of all ages.

The first ice rinks were built in the 17th century in the Netherlands, and skating quickly became a popular pastime. In the 18th century, figure skating emerged as a new form of skating, and by the 19th century, speed skating had become a competitive sport.

The Rise of Figure Skating

Figure skating is a graceful and athletic sport that combines technical skill with artistic expression. The first figure skating competitions were held in the 1870s, and by the early 20th century, figure skating had become a global phenomenon.

Over the years, figure skating has evolved into a highly technical sport, with skaters performing complex jumps, spins, and footwork. Today, figure skating is one of the most popular winter sports in the world, and it is a highlight of the Olympic Games.
