A Journey of Faith and Questioning

The Nature of Evil and God's Role

Kushner confronts the perplexing nature of evil and the apparent contradiction between a loving God and the existence of suffering. He explores the concept of a "limited God," a God who is both all-powerful and all-good, but who chooses to limit his power in Free Download to allow for human free will.

Kushner argues that God is not responsible for evil, but rather that evil is a consequence of human choices and actions. He emphasizes the importance of individual responsibility and compassion in creating a more just and compassionate world.
